Police Presence at UC Santa Cruz

- It is important to know that a Community Oriented Policing philosophy is deployed, whereby law enforcement presence is viewed not as an indicator that the campus is unsafe, but as an indicator that positive action is being taken to ensure an environment that is safe and conducive to learning activities.
- We are committed to providing a safe environment in which your student can thrive while getting the best education possible.

Crime Statistics (2012)

- In general, this is a very safe campus but crime does occur.
- Crimes of opportunity are most prominent
 - > Theft and Vandalism

Shared Responsibility

- The Police Department cannot do it alone.
- Preventing violence, crime and harm to another depends on ALL community members getting involved to identify and communicate dangerous situations and behaviors of concern.
- We encourage everyone to promptly report crime, suspicious incidents and/or persons immediately.
- As parents, we encourage you and your student to be involved.

Emergency Notifications

- Emergency Notification and Timely Warnings are important because they allow the Police and Fire agencies to alert the community about incidents that may effect their safety.
- Thus, the sooner we know about a problem, the sooner we can respond, assess the situation, and warn the community

Important influences on college students

 - In moderation, these actions may be healthy and age-appropriate
- We realize there are many influences on students that sometimes lead to poor decision making or overly dangerous risk taking behavior
 - The need to fit in
 - Direct peer pressure and indirect peer pressure
 - The student's perception of what is right or wrong
 - Peers and friends

Disappointments and setbacks

- There will be some failures but they are a great learning opportunity
- In order to grow, there needs to be the experience of setbacks
- Learning how to deal with failure is important in preparing for life, especially after college
 - Problem solving skills, stress management, resilience, etc.
 - Develop self-esteem and self-confidence
- We don't want to see them engage in criminal behavior or behavior that may physically harm themselves or others
